About Us

We are a team of builders, architects, and engineers with deep roots in Los Angeles, united by a shared commitment to quality and craftsmanship. Our journey began with the collective vision of three industry veterans, each bringing a unique set of skills and decades of experience to the table.

Our story is one of integrated expertise. We combine architectural vision and a genuine understanding of the city's distinct neighborhoods with an unparalleled focus on detail, along with a strong foundation in structural engineering and on-site construction leadership. From managing over 500 retail stores for global brands like Victoria's Secret and H&M, to leading complex public works projects for cities across Southern California, we've built a reputation for tackling diverse challenges with precision and care. Our background also includes leadership in the luxury residential sector, where we refined our focus on trusted client relationships and a commitment to perfection.

Together, we've brought this collective experience to the commercial and development sectors. We've created a company grounded in the belief that the best projects are the result of collaboration, technical insight, and a genuine passion for the work.

Our Services

Pre-Construction

Our pre-construction services are the critical first step in bringing your vision to life. We handle all the necessary planning, permits, and city requests to ensure a solid foundation and a smooth project.

General Contracting

As your general contractor, we take on full responsibility for your project, from start to finish. We oversee every detail, manage subcontractors, and ensure a seamless, high-quality build.

Design & Build

Our design-build delivery model unifies the entire process under a single team. This streamlined approach brings designers and builders together, ensuring better communication, faster timelines, and a cohesive final vision.

Tenant Improvements

We specialize in tenant improvements, transforming existing commercial or residential spaces to perfectly fit your needs. Our team handles every aspect, from design concepts to final finishes, creating a custom and functional environment.

Ground-up Construction

Ground up construction is the art of building a new custom home from a blank canvas. We partner with you to turn your vision into a unique, fully realized home from the foundation to the final detail.

Construction Management

For clients who desire transparency and control, our construction management service provides a partnership-based approach. We act as your dedicated representative, offering full visibility over costs and project details.

What We Build

Retail Spaces

We build dynamic retail spaces designed to attract customers and enhance brand identity, focusing on environments that are both beautiful and functional.

Corporate Offices

We design and build modern corporate offices that foster productivity and collaboration. Our projects create an inspiring environment that reflects your company culture.

Industrial

We construct robust industrial spaces built for maximum efficiency and durability. Our projects are designed for optimal workflow and long-term performance.

Spas

We specialize in building serene and luxurious spas that provide an exceptional wellness experience. Our work focuses on creating tranquil environments that are both beautiful and functional.

Restaurants

We create inviting and functional restaurant spaces designed to captivate customers. Our work ensures a seamless flow for operations and a memorable dining experience.

Our Clients

Our Portfolio

We have a proven track record of bringing a diverse range of retail visions to life, from fast-track interiors to complex flagship locations. Our experience spans national and international brands, and we specialize in creating unique, functional spaces that serve your specific needs, whether it's a drive-thru, a multi-story build-out, or a unique retail concept. Explore our work to see how we build for success.

Our retail portfolio showcases our expertise in transforming commercial spaces into dynamic environments that perfectly capture a brand's identity. We understand that in the competitive retail sector, the built environment is a critical component of the customer experience. From high-street storefronts to bustling mall fit-outs, our projects are meticulously managed to ensure every detail elevates your brand and attracts your customers. We take pride in delivering on-time, on-budget results that meet the highest standards of quality and craftsmanship.

Meet Our Team

Evan Dolmatsky

President | Co-Founder

A Los Angeles native with a background spanning real estate, development, and construction, Evan brings an owner-minded perspective to every project. He works closely with clients from early planning through delivery, with a focus on relationships, communication, and ensuring the finished project reflects the original vision with a focus on client relationships, clear communication, and keeping budget, execution, and the original project vision aligned.

Oren Levy

Director of Operations | Co-Founder

Oren brings decades of construction and operational leadership to FORME. His experience includes overseeing complex, high-end projects throughout Southern California and leading construction operations from planning through completion. At FORME, he focuses on execution, quality control, field operations, and building the systems required to deliver projects consistently at a high level.

Ehab Maamoun

Director of Construction | Co-Founder

A structural engineer, licensed A and B contractor, and veteran builder with more than 32 years of experience, Ehab has delivered hundreds of projects in the United States and internationally. His background includes extensive retail construction and large-scale programs for major national and global brands, including Victoria's Secret, H&M, and McDonald's. His combination of structural engineering expertise and hands-on construction leadership brings an exceptional level of technical knowledge to FORME's projects.
